# Takigirl's Recommendation Touring Waterfalls Around Hinohara Village

Ayako Sakazaki,  
Takigirl

Hossawa Falls is my home waterfall. I come here many times throughout the year, since the falls change significantly depending on the water level and season. Experiencing its natural beauty and rhythm with all five senses heals the soul, plus it's easy to get to. Hinohara Village is home to many waterfalls. I recommend the area as a base for further waterfall exploration.

🚗 To get to Hossawa Falls, go to Musashi-Itsukaichi Station (JR Ome Line) and take the Nishi-Tokyo Bus in the direction of Hossawa no Taki Irikuchi, a 25 min. drive. There, get off and walk 15 min.

### 8 Kuzuryu Falls

The name comes from nearby Kazuryu Shrine. Worshipers practice meditation underneath the waterfall.

### 7 Ryujin Falls

The only site in Tokyo selected as one of Japan's 100 best waterfalls. Broken into four separate steps, the 60-meter fall appears majestic and mystical. The falls freeze over in winter, which also makes for a popular sight.
