1 Let's put on protective equipment

Safety first! Not that we mind, when it makes us look like lumberjacks.

2 Train with the chainsaw

Practice how to start the engine, remove the safety device, hold it, and how to move.

3 Cut the log

Slice logs using a chainsaw. It's easier than you might think.

4 Cut freely

Try a variety of cutting methods. If you can handle it freely, you'll soon be a master.
