

Relaxation #05
Timberland
Quietude

Kanotoen Campground

Theme **Solo-Camping**

Surrounded by opulent nature, a quiet repose with shimmering flames. Why not enjoy your time at a leisurely pace, away from the hustle and bustle of the human race?

A time of rejuvenation entranced
by controlled flame.

The secret of solo camping is easy to ascertain.

Not an image of isolation. To go solo, is a joyous campaign. Before venturing forth into the woods, here are key points to explain.

1. Bonfire

The appearance of ever shifting fire crackling and warming as moments seem as infinite in the comforting wooded landscape.

2. Undemanding Cuisine

"Undemanding Cuisine" is a style of ease and expediency. The sizzling and roasting sounds make it the best seasoning.

3. Camping Gear

An outdoor cooking style to be made simply and quickly. The sizzling sounds make it the best seasoning for your appetite.

4. Lantern

The tools at your disposal become indispensable in due time. Being this way becomes the new norm as the bonfire declares, "More."

5. Sleep

First and foremost, make sure you have a relaxing space. A blissful time to sway in a hammock amidst the murmuring voice of the place.

The real pleasure of
solo camp is
to create a world
of your own pace.
