An educational excursion
for adults!

ALSO WORTH VISITING!

Recently, educational and academic field trips to factories as well as other kinds of facilities are becoming a trend among adults. Visitors are able to learn about the stories behind the creation, transitions, and production of popular products, with taste tests and special souvenirs available. Another reason for its popularity is that most of these tours are free of charge.

Mayoterrace is in Chofu City and uses a closed factory for tours. The tour introduces the history of mayonnaise. After studying, visitors can enjoy taste tests.

You can get the original goods only here.
