

Experience #09  
Technology

## Hirata swordsmith

*Theme* **Tradition and Innovation**

The skills of the artisan are passed down and the technology of innovation is exciting. We will show you the fascination of Japan through these two experiences from different eras and genres.

Ome Japanese sword

## Hirata swordsmith

Traditional Japanese sword-making techniques can be experienced at a swordsmith shop in Ome. Visitors can observe swords being made in a kiln, and experience tataro iron manufacturing and the making of unique kitchen knives.

Visitors will see the 1,000-year-old techniques that were handed down, and the work you make will make a perfect gift.

☎ 090-8996-0533

🏠 4-1209 Futamatao, Ome

\*Reservations required for tours and trial sessions.

Timeless craftsmanship

# Tradition & Innovation

Superior Japanese technology and skills

We will see a thousand years of swordsmithing and cutting-edge robot technology, as well as traditional and innovative "handiworks".

Hachioji Giant robot Suit

## Skeletonics

Become a giant of the future! Board a 2.8 metre tall "ride-on robot" and experience the sensation of being a giant. The robot's natural feel of operation linked to human movements will expand both your body and dreams. Witness the innovative technology at the developers' demonstration.

🏠 1100-16 Shimoongata-machi  
Hachioji

\*Factory tours and boarding events are held irregularly. Book via the company website.
